

## TO PREVENT ACCIDENTS

An Important Invention by a Richmond Man.

### AN AUTOMATIC STOP

Designed to Lessen Casualties Resulting from Open Switches, Draw Bridges and Other Causes.

Patents have just been received here for an invention by a Richmond man, which promise well in the direction of preventing serious and frequently death-dealing accidents on railways.

Stops will very shortly be taken to bring the matter to the attention of several railways and to give a practical demonstration of the utility of the new device. If what is claimed for it proves true, there can be but slight doubt that it will be very generally adopted.

**CAUSE OF ACCIDENTS.**  
A great many of the accidents of almost daily occurrence are due to open switches or failure of engineers to regard signals on semaphores. Along the line of a railway there are telegraph stations in constant communication with the train dispatchers in the city. Near the track in front of these stations is a pole, connected with the office. On the pole is a movable blade or paddle, which can be moved from the inside of the office. When the dispatcher notifies the telegrapher of trouble, he at once moves the paddle in a position which means "danger." If there is no trouble the stick of wood stays straight, conveying to the engineer the intelligence that the way is clear.

Frequently, however, a hard-worked and weary engineer will run by the semaphore without paying any attention to it. In a number of cases accidents have resulted. So great has the danger become that one road has established a rule flinging engineers who disregard these signals.

**THE INVENTION.**  
The contrivance just patented is a square iron box, about two feet long and eighteen inches wide. It is placed beside the track, near switches, draw-bridges and semaphores. The mechanism in the box works automatically. The act of opening the draw-bridge or the switch, or changing the position of the paddle on the semaphore to the danger signal will of itself cause an iron stem to move out in close proximity to the track. On each engine has been fitted a three-way cock and when the engineer comes along this cock comes into contact with the iron stem. As a result, air is applied to the brakes in every car and the train comes to a sudden stop. Until he gets out and adjusts the stem, the train will not start. Out what is the matter ahead, the engineer can't move a peg.

In this way no signal on the semaphore can be disregarded. The mere opening of a switch or the drawing of a bridge, or the changing of the paddle, will put the new machine to work, and will prevent the train from passing until everything is fixed.

**THE INVENTOR.**  
The inventor is Mr. Z. L. Truhman, of this city, who was for more than thirty years general foreman of the Richmond, Fredericksburg and Potomac shops. Associated with him is Mr. J. H. Letcher, of the Richmond, Fredericksburg and Potomac. The patent came yesterday, and the inventors are now preparing to lay the matter before railway authorities. They expect shortly to give a practical demonstration of the working of the machine. Whether or not they will begin the manufacture of the boxes here is a matter as yet undecided.

### GAY WEEK IN ASHEVILLE

The Southern Golf Tournament the Leading Feature.

(Special to The Times-Dispatch.)  
ASHEVILLE, N. C., May 23.—The past week in Asheville has been a very gay one. The all-absorbing event was the Southern Golf Tournament, which closed today. The tournament opened Wednesday and took place at the Swannanoa Country Club. It was attended with a continuous round of social functions. There have been dances, receptions, teas, smokers, luncheons, etc. To-night there was a ball at Battery Park Hotel, which was a brilliant social success. Several hundred dancers were present. On Wednesday evening a smoker was given at the Manor, which followed the association's annual election of officers.

On Thursday evening Mr. J. Ed. Rumbough entertained, and on Friday evening Dr. Charles S. Jordan entertained. Regular afternoon teas have been served throughout the week at the Swannanoa Club. The tournament proved a big success. Representatives from all the leading Southern golf clubs were present. The association now represents a membership of about 3,000. Among those in attendance from Virginia were Mr. Ely, of Richmond, and J. G. Winston, of Richmond.

On Monday evening a dance was given at Overlook Park, which was a largely attended affair.

Members of the College of the Holy Trinity, of Philadelphia, are at Kenilworth.

George L. English, of New York, is at Battery Park.

Norman Leeds, of New York, is at Battery Park.

### SUNDAY-SCHOOL OFFICERS

Two Candidates Announced for Mayor of Lexington.

(Special to The Times-Dispatch.)  
LEXINGTON, VA., May 23.—The officers elected for the ensuing year by the Rockbridge County Sunday-school Association, which was held in St. John's Methodist Church, Buena Vista, are as follows: President, Colonel John D. Letcher, of Lexington; district vice-presidents, J. P. Stratton, of Lexington; J. T. Glasgow, of Buffalo; C. B. Leech, of Lexington; W. H. Dixon, of Natural Bridge; P. H. Harris, of Walker's Creek; J. A. Shaw, of Lexington; secretary, J. M. Adams, of Lexington; musical director, J. D. Deacon, of Oak Dale.

Two candidates have announced themselves for Mayor of Lexington at the approaching election: Messrs. W. P. Fierston, the incumbent, and S. B. Walker, Jr. Mr. Fierston has selected for his Council Messrs. C. H. Estill, J. D. Letcher, P. M. Penick, C. A. Quisenberry and W. T. Shields. Mr. Walker's running mates are Messrs. C. R. Deaver, W. P. Fierston, G. W. O'Leary, P. M. Penick, H. R. Wright and C. H. Stuart.

### TAZEWELL FAIR

Uncertainty of the Courts Shown in Case of the Pocahontas Company.

(Special to The Times-Dispatch.)  
TAZEWELL, VA., May 23.—The county fair has been fixed for the 1st, 2d and 3d of September, and it is predicted will be the best fair Tazewell ever had. The case of the Pocahontas Light and Water Company against Browning, which passed from the Circuit Court of Tazewell county to the Court of Appeals, was decided in favor of the Light and Water Company. The same case,

with the same pleadings, went into the Circuit Court of West Virginia, before Judge Saunders, and was decided in favor of Browning, and the Court of Appeals of that State has affirmed the decree of Judge Saunders. Such is the uncertainty of the law. Two sister States, the one the daughter, bone of our bone and flesh of our flesh, in law, of the fact, with the same case before their respective courts of last resort, with the same pleading, same evidence and same counsel, and the one deciding for the complainant and the other for the defendant. The water works are partly in Virginia and partly in West Virginia.

Dr. Crowell, of Washington and Lee University, delivered a most interesting address last Thursday evening at the closing exercises of the Tazewell High School.

**Colored Veterans in Petersburg.**  
The colored Spanish-American War veterans will give an outing to Petersburg this morning, and it is estimated that at least a thousand of their friends will go over with them. The outing will be given by the William C. Hankins Camp of colored veterans, who will be accompanied by the battalion association. The colored veterans, headed by the municipal band, will start from the Sixth Virginia Club to-morrow morning at 8:30 o'clock.

The veterans met Friday night at the club and perfected all arrangements looking toward their outing to-day. They will be met at the depot in Petersburg by the local camp of veterans and escorted to the armory, where a feast will be spread by their Petersburg comrades, after which they will attend the Oak-Street Church and hear a sermon by the Rev. R. V. Peyton, pastor of the Jasper Memorial Church of this city.

**Dr. Randolph Here.**  
Dr. H. Ward Randolph, who has been in the Marine Hospital service at Stapleton, Staten Island, N. Y., as home surgeon, has returned to the city. Dr. Randolph will be in the city for two weeks or more with his parents at No. 220 York street. At the expiration of that time he will leave for Pocahontas county, W. Va., where he will be associated with Dr. J. D. Arbuckle and take charge of a private hospital, which he and Dr. Arbuckle will establish at Cass, in that county.

**May Queen Fete.**  
The hour of the opening of the May Queen Fete, to be given at Grace and Twenty-sixth streets May 28th and 27th, has been changed from 4:30 to 5:30 o'clock.

## THE DROUGHT WAS BROKEN

(Special to The Times-Dispatch.)  
FREDERICKSBURG, VA., May 23.—The long drought was most unexpectedly broken here at 8 o'clock last night by a sudden wind and rain storm, which raged for some time. Whilst the rainfall was not very heavy, it was most welcome and did a wonderful amount of good. The wind was very high for a time, and many limbs of trees were broken off, but no other damage is so far reported.

The City Council at its meeting last night decided to open Prince Edward street, across the Richmond, Fredericksburg and Potomac, and Piedmont, Fredericksburg and Potomac Railroad tracks, which will involve a considerable expenditure and cause the railroad some trouble.

Mr. John W. Wroten has purchased of John C. Shelton's estate the dwelling on Main street, between Wolfe and Prussia streets, and will at once remodel and improve the property.

Mr. Howard Smith, of the Northern Neck, caught a few days ago a sturgeon, from which he secured roe to the amount of \$18.

Mr. Douglas Somerville has contracted for the erection of a handsome \$5,000 residence at Mitchell's, in Culpeper county.

General B. F. Alexander, of South Carolina, chief of the artillery of the First Army Corps of Northern Virginia, and Mr. Fredericks Bancroft, of Washington, who are preparing a history of the South, to cover the civil war period, have been here this week visiting points of historical interest, including the battlefields.

Rev. E. W. Winfrey, of Culpeper, will preach at the Baptist Church here to-morrow in the absence of Dr. J. S. Dill, the pastor, who is conducting a revival for Mr. Winfrey, at Culpeper.

## MEMORIAL DAY IN LEXINGTON

Observed With Song Exercises by the Veterans.

(Special to The Times-Dispatch.)  
LEXINGTON, VA., May 23.—Interesting services were held here this afternoon in the Lee Memorial Chapel at Washington and Lee University, commemorative of Confederate Memorial Day. A large crowd was present, including members of the General Assembly of the Southern Presbyterian Church, now in session in Lexington, and many residents of the town and county.

The exercises opened with the song, "Fighting on the Old Camp Ground." The addresses were made by Rev. Dr. A. C. Hopkins, of Charleston, W. Va., the moderator of the General Assembly, and Rev. Dr. J. T. Plunkett, of Augusta, Ga. Dr. Hopkins was chaplain during the Civil War of the Second Virginia Infantry, of the "Stonewall Brigade." "Auld Lang Syne" was sung with a zest by many of the soldiers. The exercises were closed with the song, "Cover Them Over With Beautiful Flowers."

Following the exercises at the chapel, a procession was formed on the University campus and marched to the cemetery in the following order: Chief marshal and aides, Virginia Military Institute Band, officers and cadets of the Virginia Military Institute, faculty and students of the Washington and Lee University, Lexington Fire Company, benevolent and civic organizations, Confederate veterans, citizens.

Arrived at the cemetery the graves of Confederate soldiers were decorated with flowers. The statue of General Stonewall Jackson, the monument to Dr. J. M. Pendleton, Governor McDowell and others were elaborately decorated. The tomb of General Robert E. Lee at the University was also decorated with beautiful flowers. Salutes were fired at the cemetery by members of the old Rockbridge Battery.

## NEGROES IN SERVITUDE, SO INDICTMENT SAYS

(By Associated Press.)  
MONTGOMERY, ALA., May 23.—Albert P. Franklin, of Goodwater, Ala., was brought here to-day by a deputy marshal under indictment for keeping negroes in servitude.

Franklin, 43, a Dickey, of the United States Secret Service, caused the indictment of Franklin charging that he was one of several who brought negroes to Middle Alabama, compelled them to work during the day and locked them up by night.

## YOUNG GIRLS AS PAINTERS

Fine Work on Exhibition at Crenshaw House.

AS REALISTIC AS LIFE

Water-Colors, Oil, Charcoal, Pencil Drawing and Design; Cover Wide Range of Subjects and Are of Peculiar Interest.

The work of the Richmond Art Club during the past year in oil, water-color, charcoal and pencil drawing and design is displayed at the exhibit in the two down stairs rooms, just underneath the saloon parlors.

Many compliments have been bestowed upon the excellent instruction of Miss Fletcher and the excellent work done by the classes under her direction. Mr. James H. Moser, at the time of his visit to Richmond, was specially enthusiastic in regard to the fact that the work was being done along right lines, with nothing about it that needed to be undone. Mr. Moser's opinion is well worth having, as he is both an artist and art critic with recognized and established standards. Just as one enters the door where all paintings done by Art Club students are hung, one's attention is caught by a painting numbered 17, a portrait study done by Miss Bell Perkins, which shows the profile of a Confederate veteran, garbed in gray and gilt, with his slouch hat pulled well forward over his brow.

The painting is a strong piece of work, and the Confederate might well stand as a type that is rapidly passing. The somewhat rugged, but kindly face, with the firm set jaw, has been finely brought out by the brush of the artist, who has set her own manual on her handiwork.

No. 2 is an example of Miss Annie Dunlop's skill in portrait painting. The picture represents a young girl with long chestnut brown hair and rich coloring. The expression of the face is somewhat pathetic, the head being slightly inclined and the dark eyes looking wistfully up from the canvas. Miss Dunlop has two other portraits on exhibition. All three possess a well-defined interest for the visitor to the exhibit. It is a matter of pride to Miss Dunlop's friends and relatives that she has won her scholarship in New York without any other than Richmond instruction, having been here first a scholar of Miss Lily Logan and afterward of Miss Fletcher.

No. 12, a portrait study, by Miss Julia Woodbridge, is charmingly treated, the pose of the head and figure and the coloring being especially fine.

**PEACH BLOSSOMS.**  
A spray of peach blossoms, catalogued as No. 16, by Miss Withers, is unusually fresh and delicate, the blossoms being so naturally tinted as to look as if they had just been broken from the tree. One of Miss McIntyre's studies—No. 23—is as pretty as anything shown, the red cap and jacket of the pictured model and the Dresden-like regularity of her features harmonizing well with the soft outlines fading into a dusky background.

Miss M. C. Patterson's firm yet discriminating strokes are easily apparent in two charming water-color landscapes. Nos. 1 and 2, called "Misty Morning" and "Haystacks," Miss Catlin's "Old Skipper" is matched by her "Old Mammy." One stands looking at both, almost uncertain as to which one should prefer.

Mr. M. M. Strahan has a landscape in oil, No. 23, which is exceedingly realistic. "Lilacs," numbered 25, by Miss Withers, brings up fragrant visions of an old-fashioned garden from which just such flowers as Miss Withers' brush has been weaving may be seen in the exposure in the painted sprays that Miss Withers loves lilacs and has their photograph in her heart.

The charcoal and pencil drawings make a most interesting collection, and cover a wide range of subjects and individuality. The work of the class in design is a matter not to be lightly considered. The designs are adapted to textiles, tiles, oilcloths, illustrative decorations, book covers, book plate and wall-papering. Exhibitors include Misses Baughman, McIntyre, Meredith, Dunlop, Adams, Clark, Staples, Williamson, Catlin, Patterson, Mrs. Lorraine, Mrs. Clarke, Mr. Walker and Miss E. R. Selden.

## PRETTY MAY WEDDING

Mr. Russell Miller Wins Pretty Kentucky Girl for Bride.

One of the prettiest marriages that has yet been solemnized in May, "the happy month of flowers," took place in the parlors of the Rev. I. M. Mercer, D. D., pastor of West View Church, on Tuesday last at 9:30 o'clock, when Miss Mary Anderson became the bride of Mr. Russell Miller. The bridesmaids were Miss Nellie Tinsley and Miss Kate Miller, the groom's sister. The ushers were Clincy P. Miller, brother of the groom, and Mr. George Mayo. After the ceremony the happy young couple repaired to the home of the groom, where an elegant reception awaited them. The bride is the daughter of Mr. Samuel Anderson, one of Kentucky's most esteemed citizens. The groom is a well-known carpenter of this city. Mr. and Mrs. Miller left Wednesday for the home of the bride, in Bowling Green, Ky. They will be at home to their many friends after June 1st.

## FULTON PARK.

Several car-loads of lumber are looked for daily for the purpose of erecting a fine pavilion, and various attractions will be afforded the public before the close of the present season. Seats have been placed throughout the grove, and a charming picnic ground cannot be imagined.

Mrs. S. W. McKinney and son, Raymond, accompanied a jolly party of picnickers to Forest Hill Park on Wednesday, where they spent a charming day.

The following friends of Mr. and Mrs. S. W. McKinney visited them during the week: Mrs. R. M. Turner of Lower Henrico; Mrs. L. P. Pollock of Richmond; Mr. Charles DeMay and Mr. William Robertson.

Mrs. McKinney visited friends in Fairmont on Monday.

G. G. Fulton has put in a great deal of time laying plans for his proposed improvements, and will, within a fortnight, have a large force of hands at work.

**Star and Crescent Council.**  
The Star and Crescent Council, No. 6, Daughters of Liberty, held their seventh anniversary Friday evening at Belvidere Hall, with Mr. B. Lovell presiding. The following programs were rendered: piano solo, Misses Knoff and Burton; song, Miss L. Camden; song, Mrs. L. Knoff; solo, Messrs. King and Earp;

quartette, Messrs. Wray, Hix, Whitlock and Decho; address, by Mr. Jacob Umhaut. Refreshments were served later.

The following committee were in charge: Sisters Wilkinson, Dowden and Corduroy and Brother Lovell.

## THE MAN ABOUT TOWN

—BY—  
Harry Tucker

**DAILY CALENDAR.**  
1776—Chickahominy fishing grounds discovered by John Smith.  
1862—Still a popular place for Jones, Brown and Smith.

They are talking about pulling special trains on the railroad to take the fishermen down to Chickahominy.

And Mr. Rieger is thinking about enlarging his dining room, so he can dispose of the big fish that his friends bring him from the fishing grounds.

Now, what seems strange to us is where all the fish come from that people tell us they catch in the Chickahominy. We hate to say it, but we don't believe that Jones will catch a chub weighing twenty-three pounds and seventy-five cents.

That's bigger than a chub gets to be, and we feel that it is simply the exaggeration of a story that was started that Mr. P. P. Winston brought back a mullet weighing two pounds and three quarters.

It's funny how many people like to make light of fishing trips by making the fish heavy.

We never went fishing but once, and then our hat blew overboard, and we made up our mind we wouldn't go again for fear we'd lose our coat.

There's nothing we like better than fish for breakfast, though, and we always feel delighted when the neighbors send some in.

When we ran up against Comedian Michaels and Mr. Kelly, of the Robinson Opera Company, leaning up against Mike Lawler's soda-water fountain, we felt that we were in luck, for we were downhearted and sad and needed something for a bracer, and there are some good stories, we said to ourselves.

"It was a dark and stormy night," said Michaels, "when we started on the trip."

"And the wind had blown our whiskers away," said Kelly, "so that our teeth chattered."

"So much, indeed," said Michaels, "that we could not drive the pork and beans that had been given us by our best girls."

"Nor eat the absent frappe that had been donated by the crowd at the depot," said Kelly.

We asked them what kind of a story this was, and were informed that it was Tommy Hayes' first trip to the moon.

"All of a sudden," continued Michaels, "the wind stopped, and the engineer looked ahead and saw a little child on the track at the water tank trying to feed the squirrels with some peanuts."

"My goodness," went on Kelly, "said the engineer, and the child's mother ran out and rung her hands, while the father wept and said, 'Oh, my child, the pain and the pain!'"

"Save my child!" screamed the mother. "Oh my life!" shouted back the engineer.

"Then," said Michaels, "he threw a rope around the first telegraph pole, just as they reached the child, and pulled the rope off the track, as it was making a sixty miles an hour clip."

"What of the two hundred passengers?" we asked.

"Oh! they were all killed," said Kelly. "But the child's life was saved," retorted Michaels.

"I don't believe that story," said Tommy Hayes.

"I don't believe it either, and we think somebody put it in an almanac many years ago."

Mr. George Cease is now boosting the Raleigh dram, and as an incentive he has hooded the town with a whole lot of little medals, which he says resemble the sound from a telegraph instrument more than anything else.

We got one of them and carried it home, and now the subject of the medal is what begin their shrill chirps about 4 G. M.

If it is to get some Raleigh dram for Mr. W. H. Childers, we'll do the former and try to forget the latter.

**REALTY DEMAND IS UNABATED**  
Mr. William B. Pizzini Talks About Market, Substantiated by Fortnight's Results

A representative of The Times-Dispatch called on Mr. William B. Pizzini, of the William B. Pizzini Company, yesterday to ascertain the condition of the real estate market of Richmond, both from a sale and rental standpoint. Mr. Pizzini said that the demand of purchasers for good properties, both for homes and safe and lasting investments, is much greater than the supply. He pointed out that a plenty of money seeking investment in good real estate. The demand for medium and small houses by tenants continues unabated. As an evidence of the healthy condition of the real estate market, Mr. Pizzini called attention to the fact that a few years ago it was difficult to obtain money to satisfy the demand for parties desiring to place mortgages on their properties, even at higher than regular interest rates; to-day it is only with the greatest difficulty that any good loans can be secured at all, and we have a number of patrons who prefer loans and mortgages to purchasing properties, who have had their money at our disposal for months, and we have been unable to place it for them on any loans that we would care to recommend as first-class.

Everything now is sales. As an evidence of this, the following is a partial list of the city sales made by the William B. Pizzini Company during the past fortnight:

Sold for Julius Kraker, No. 1103 West Main street, to Mr. L. N. Jones, for \$1,250.

For C. W. Harwood, No. 1423 Floyd Avenue, to Mrs. Hannah Bloomberg, for \$3,355.

For Mrs. L. J. Adams, No. 1103, 1105, 1107, 1109 and 1111 West Avenue, to Mr. L. N. Jones, for \$2,000.

For Charles Straus, No. 1103, 1105, 1107, 1109 and 1111 West Avenue, to Mr. L. N. Jones, for \$2,000.

For E. B. Travis, No. 811 North Second street, to Mr. W. M. Thompson, for \$2,750.

For same, to John W. Hughes, \$1,150.

For E. Raab, 130 feet on Main street, near Twenty-ninth, to Mr. R. Burton, for \$7,500.

House and lot on Bowling Green road, to Mrs. Sophia Lyneman, for \$750.

For C. W. Harwood, No. 1423 Floyd Avenue, to Mr. Andrew Pizzini, Jr., for \$15,000.

House and lot on Fairfield street, for John W. Hughes, to W. G. Duke, for \$400.

Two stores, Nos. 1708 and 1710 East Franklin street, for C. Donaldson, to Henry Gunst, for \$10,500.

No. 618 North Seventh street, for F. L. Pedneau, for \$3,000.

No. 1113 Floyd Avenue, for J. C. Thompson, to F. L. Pedneau, for \$3,250.

For Thomas McCarthy, No. 14 North Eighteenth street, to F. Roth, for \$500.

# Canadian Government Food Test Grape-Nuts

Shown to have over sixteen times the amount of digestible food as the least one, and about two-thirds more than the next best food made, and nearly double the energy-producing power of any other food known.

(Extract from report of Gov't officials at Ottawa, Can.)  
**LABORATORY OF THE INLAND REVENUE DEPARTMENT.**

OTTAWA, December 10, 1902.  
THOMAS MACFARLANE, ESQ., F. R. S. C.,  
Chief Analyst Inland Revenue Department.

Sir,—I beg herewith to submit a report of my work on Breakfast Foods:

These samples, as you are aware, were not collected and examined because of any suspicion regarding their wholesomeness or genuineness, for they were believed to be, as their analysis proves them to be, nutritious and palatable foods. In view, however, of the high prices at which they are sold, and of the extravagant claims put forth by their manufacturers as to their digestibility, nutrient powers, etc., there exists a widespread demand for information as to what they really are, and how much of all the value claimed for them they really possess.

SAMPLE.	Moisture.	Fat.	Ash.	Proteids. Nitrogen x 6.25.	Crude Fibre.	Dextrin.	Starch. By difference.	Calories per gram.	Material Soluble in cold water.

GRAPE-NUTS is away in the lead of every other food in the following respects: It has less moisture, less fat and less starch; it has more dextrin and is more soluble than any other food.

**The first four are the most heavily advertised cooked foods in the world.**

We will furnish any enquirer with the names by mail, but prefer to omit them in a public announcement of this kind.

In the sixth column, under Dextrin, observe Grape-Nuts percentage is more than NINE TIMES the small one, and nearly double the next best food.

DEXTRIN is the form of sugar that the starch part of grain is turned into before it can be digested. Dextrin is the part that makes human energy.
